TURN INFORMATION

INTO ACTION!

**Tailor made strategic
and competitive intelligence services**

Our **COMPANY**

Actulligence is a private firm specialising in **strategic and competitive intelligence supporting projects** across every aspect of your business.

Our **SERVICES**

Do you need supports to put in place your competitive intelligence system?

We have a ready to use monitoring solution: from conception to launch, our team takes care off everything!

Our goal: to make your monitoring system a user-friendly and collaborative component integrated into your information system. We operate across numerous fields: energy, manufacturing, construction, banking, insurance, health and pharmaceutical...

**Do you have specific or one shot needs?
We can organize specific workshops for you.**

We provide a customised service in consulting and training, including:

- An audit of the customer's system,
- Project management support (defining needs, scope),
- Help to choose relevant software,
- System design,
- Team training and implementation,
- Daily monitoring,
- System maintenance.

Our SOLUTIONS

A quick answer to your problem

- You want to set up a monitoring solution,
- You do not have the skills or resources to do it,
- You need advice or help to find your solution,
- You need to implement quickly to monitor your environment accurately and efficiently.

ACTULLIGENCE Service / Our added value

The Actulligence solution is:

- A single dedicated monitoring officer responsible for your dossier, with knowledge of the file, the needs and the expected results.
- Expertise in the market's software and information processing.
- Control of the whole process, costs and deadlines.

01

A fully operational service, implemented quickly (compared to an in-house solution).

02

You don't have a solution: **we use our systems to provide you a high quality service.**

03

You already have a monitoring solution, **we know how to use it.**

04

No technological constraints.

What sets
Actulligence apart
from its competitors

« We provide a tailor-made
service to our clients meeting
their own specific needs »

- A high level of expertise,
- A customized and flexible service,
- Faster and more efficiency than a standard solution,
- High quality service with a short lead time,
- Flexibility and adaptability in the delivery of the service,
- Expert profile: a specialist works with you in the best ressources.

In an increasingly competitive economy, **information** has become an essential resource in the decision making process.

Monitoring is at the heart of managing business performance in order to maximise potential.
